

XAudit is a comprehensive platform offering users access to various pre-built templates tailored for clinical settings. Clinical audits are vital in enhancing patient care quality and delivery, with NHS organisations conducting numerous audits annually.

XAudit streamlines the entire audit process, from mobile auditing to integrated action planning, facilitating impactful change implementation and centralised monitoring.

Through the customisable audit builder, you can effortlessly create audits independently, eliminating the need for external assistance or technical expertise. Take charge of your audits by adding, customising, and managing them at your convenience. With complete control over questions, response formats, and calculations, you can tailor audits to your specific requirements. The extensive library of pre-built audit templates encompasses diverse needs and data collection methods, such as checklists, observational audits, and surveys.

Audit Templates

Users can create any audit they need, using a range of question/answer formats, frequencies, or importance.

Schedule audits

Audits can be assigned to different users and scheduled to happen on a variety of frequencies.

Compliance dashboard

All results feed into the online suite of detailed dashboards, in real-time, providing instant visibility of compliance.

Action plans

When audits fail, action plans can be created to ensure they pass the next time.

App-based

Audits can be carried out online and offline on a mobile/tablet app, eliminating the need for paper systems.

+ many other features designed to save time and improve patient satisfaction.

✓ Saves time

✓ Ensures compliance

✓ Provides visibility of problem areas

Reduce, improve, track, and move.
Realise More with Synbiotix.

Synbiotix^X

"The systems are very intuitive and user-friendly, with robust and comprehensive administrative and reporting functions. The data Synbiotix provide us with is invaluable to alter processes and create operational efficiencies across multiple departments"

Emily Griffitt

Contracts & Systems Manager, University Hospital Bristol and Weston
